For

### Solidarité Laïque « A notebook a pencil »

The charity « Solidarité Laïque » was created in 1990 and get involved in France and in approximately 20 countries .

In France, it leads actions of solidarity for families' social integration offering them holidays.

In African countries, the association participates in the building of schools and helps providing school supplies.

This year, « Solidarité Laïque » organised an action to collect school supplies to hand over to the Senegalese pupils in particular.

Our school participated in this action with the initiative of **Mrs Gateau**, our History/Geography and Civil Education teacher.
