## World Abortion Statistics

I want to present here the main totals of available statistics about abortion in the world. They are based on the work done by Wm. Robert Johnston and I refer to his work for wider and more precise details: see web link next page.

The figures are the ones of the column **“Reported induced Abortion”**, except for “Vietnam” where I included also the “estimated ones” in the places where the report was missing. Moreover, I added the estimated figures of the years missing in order to reach 2013. These figures are based on the last year report, multiplied by the missing years to 2013. **The division is done by “Continents”** and, as for Europe, the “EEC”, “western countries” and the former **“Communist Countries”**, just to have a rough idea of the situation under communist ideology and elsewhere.

Out of all the countries, **I took 28 of them**, the most relevant on the topic. Many countries, may not have any report and other just at times. However, the purpose of this paper is not to go into many little details, but to confirm **“how real” the “Tragedy of Abortion” is in ideologies** which have **“no respect” for the dignity of human life**, be it coming from a **“Communist”** background or an **“Eugenic”** one.

Moreover, if the number of **“Reported induced Abortions”** are so dreadfully high, **beyond 800 millions (818.841.270)**, **what would happen if we add to them the non reported ones? The number will surely bypass “One Billion Abortions.”** **Imagine that all this happened in an average span of around 60-70 years**, most of them after the 50s, except for USA from 1926.

Then no wonder the statement of Pope John Paul II in no. 17 of “The Gospel of Life” saying: ***“The twentieth century will have been an era of massive attacks on life, an endless series of wars and a continual taking of innocent human life. False prophets and false teachers have had the greatest success”***.<sup>15</sup>.....***Nor can it be denied that the mass media are often implicated in this conspiracy...”***.

The figures here below can give a real weight to the “Pope’s words”. But, as “first evangelisers”, how do we address the issue in our present century to people and to youth? Without a plan and a serious and motivated positive action, the roots of the trees bearing those dreadful fruits will get stronger and the branches also. Just looking at the **“horror film in real time...”** ?

Fr. Francesco Chemello mccj
