Press release: tour of Europe to meet European citizens

Extremely concerned by the situation going on in my Country, I walked all around France in 2013 and it lasted more than eight months where I crossed more than 3106 miles (5000 km). I have had the good luck to listen to numerous records from very different social status and various personal situations.

On the 22nd of April 2014 I sent a report¹ to our President of France and to the high authorities. I have noticed that, regarding to the Europe, the relationship with France and it's future are a real concern of French citizens, at the same level than the unemployment, globalization, debt and our children's future way of life.

I have then decided to prolong my very interesting walk all around the Europe during this election campaign to choose the new deputies which will take place from the 22nd of May and the 25th. I started my European Tour in London in the 3rd of May and I will visit a dozen of others countries like Ireland, Spain, Italy, Portugal, Germany, Belgium, the Netherlands, Denmark, Romania, Czech Republic, Greece and Poland. The Countries have been chosen regarding to the opportunities and I will travel by train, car or plane, depending on the distances and prices and this to visit both cities and countries.

I really think that an election campaign is the best moment to listen, note down people's words, try to understand and share the citizens' concern. If you are interested in my action, I am at your disposal if you want us to meet. It would be extremely useful to me to meet with your opinion, your point of view, your vision of our actual Europe and it's future.

You can reach me through my assitant during my European Tour : Paul-Antoine : +447 50 96 76 48 and my French office in Paris with the above phone number(you have to think of adding the prefix)
