Special Instructions:

The first step stitches the layout for all appliques but
**ONLY LAY FABRIC DOWN IN THE ORDER
GIVEN.**

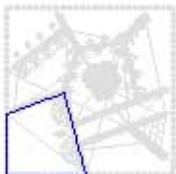

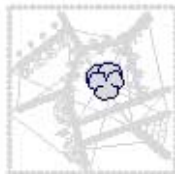

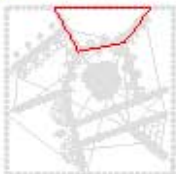

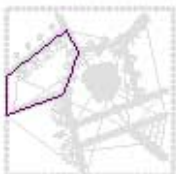

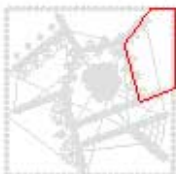

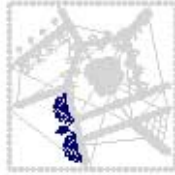

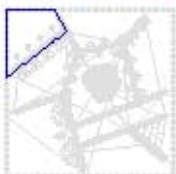

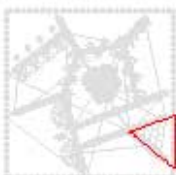

For a more hand stitched look embroider the thin
motifs twice.

The "qe" file is a quilter's edge which has only a thin
zigzag edge. Use this file if you want to sew the blocks
together with a 1/4" seam allowance.

The "ap" file is an appliqué edge which has a finished
edge when embroidery is completed.

**On the "ap" file the appliqué stitch on this
block will be between steps 19 and 20.**
