

APEX3

Motion Simulator with ROLL, PITCH & YAW

DEVELOP DRIVER SKILLS, DEVELOP SETUPS
ANY CAR, ANY TRACK, ANY DAY, ALL DAY

REAL SIMULATION WITH INDEPENDENT
AXIS MOTION ON ROLL, PITCH, AND YAW

FEEL THE CAR UNDERSTEER & OVERSTEER
FEEL THE LIMIT OF ADHESION WITH YAW

TUNE MOTION SYSTEM in REAL-TIME

ANY WHEEL, PEDAL, A/V COMPONENTS

FORMULA TUBS OR GT COCKPITS

TURN KEY or BY COMPONENT

UP TO 200 DEGREE FIELD OF VIEW

PROFESSIONAL CONTROLS

PRACTICE RACE CRAFT

BASE MODELS AVAILABLE

"Our APEX3 Formula simulator allows our team unlimited seat and testing time and is becoming an enabling center piece between drivers and engineers for race preparation."

-Sam Schmidt
IndyCar Team Owner

"The independent axis motion of our APEX3 GT, particularly the yaw capability, has proven very valuable in training car control technique in high speed loose surface driving."

-Tim O'Neil
Team O'Neil Rally School Founder

"Use of the APEX3 simulator in the classroom allows students to experience accurate race car dynamics at track speed before getting out onto the circuit."
