N.S. Savannah operated by the States Marine Lines, General Agents, Maritime Administration, U. S. Department of Commerce

SOUVENIR GUIDE

"In the years to come, this nuclear-powered merchant ship will demonstrate to the peoples of the world the intent of the United States of America to use the atom for peaceful purposes; and the citizens of this Nation may take justifiable pride in the building of this ship and in its future dedication to our peaceful trade and world commerce. It is in the service of our trade and commerce that the American Merchant Marine provides a vital link between this Nation and the other nations of the free world."

From President Kennedy's Maritime Day Proclamation, 1962.

"These United Way Campaigns exemplify the American talent for teamwork. Every campaign challenges the community's civic pride, generosity and capacity for hard work . . . , The United Way benefits the greatest number of people." *President Kennedy*

United Seamen's Service is supported by more than 500 United Way Campaigns across the country. Established in 1942, the agency fulfills the American obligation for services to our seamen in foreign ports, in accordance with the following Geneva Recommendation of 1936:

"By the nature of their calling seamen are frequently deprived for long periods of the advantage of family life, and may be exposed while in ports, particularly in foreign countries, to special dangers and difficulties and whereas it is not always possible for them to have the benefit of arrangements made to organize the spare time, promote the welfare and safeguard the health of the general body of workers;"

SERVICES PROVIDED BY USS LAST YEAR

Number of ships in USS ports	21,612	Hospitalized seamen served	1,921
Number of seamen coming ashore	1,065,582	Detained seamen served	737
