SS FRANCE WORLD'S NEWEST & LONGEST LINER

relax in the most carefree atmosphere in the world — play at whatever your heart desires — all luxuriously, pleasurably — on the superliner that thought of EVERYTHING! the unprecedented
SS FRANCE

Newest and longest luxury liner of them all . . . with the beauty and glamour of France in every line, the 1035 foot long S.S. France smooths every sea with her two pairs of stabilizers. Big, roomy cabins—designed and decorated by famous French experts—are all equipped with private facilities, telephone and individual air-conditioning controls. Only lower beds are used on cruises for added comfort and space. Lots of closet room, too! And within minutes of any cabin, you can reach the largest indoor theatre afloat—and two swimming pools (one, glass-enclosed and sunlit), each with their own private bars and gymnasiums. Explore a magnificent array of public rooms with paintings and tapestries executed by the most famous contemporary French artists. Throughout the ship are deluxe reading and writing rooms, plush stores, gay cafes and elegant nightclubs. Nearly a mile of open and closed decks invite your participation in deck sports, strolling or plain relaxing. And everywhere, you experience the superb service and special touches that are the hallmark of a French liner. And last, but certainly not least, there's the superb French cuisine—with table wine—compliments of the Line. *Allons!* Dine, dance, read, play, join convivial friends at cocktails or "Showtime." Name it—its yours . . . on the S.S. FRANCE!
