# The 70's / 80's

- The eighties actually began with the failed military uprising on 23th of February of 1981 and ended in 1992 with the Barcelona Olympics and the Seville Universal Exhibition.
- Who lived those years considers them as the *prodigious decade*. Memories of these years bring us a country with an only public TV channel, living a challenging political and social experience thanks to a new historic stage named *la Transición* (the Transition). It was an amazing era, the most amazing one of the current Spain history .

# The 80's

1981. The beginning of San Xerome Association. Created by 2 volunteers and 10 disabled children. Nowadays there are more than 100.

# The 90's

- In the early 1990s, several late 1980s fashions remained very stylish among both sexes. However, the popularity of grunge and alternative rock music helped to bring the unkempt grunge look into the mainstream during 90's.

- The anti-conformist approach to fashion led to the popularization of the casual chic look; this included T-shirts, jeans, hoodies and sneakers, a trend which continued into the 2000s (decade). Additionally, fashion trends throughout the decade recycled styles from previous decades, notably the 1950s, 1960s and 1970s.

# *The future is in your hands*

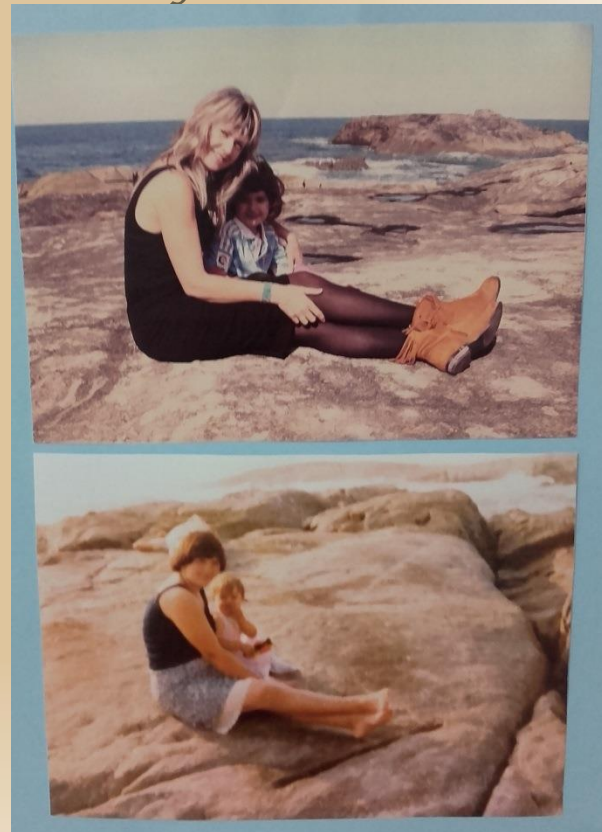

Thanks to this Erasmus+ project, we shared these stories with all of you (France, Italy, Poland, Portugal, Romania and U.K) by setting intergenerational activities up in order to both elderly people and disabled people are able to teach all their knowledge to our students who learnt to respect the abilities and capabilities of everyone. That was our goal, we hope to have reached it...
