

Conférence IRCE

***Autonomie, interdépendance, solidarité,
sécurisation, segmentation et optimisation
énergétique européenne***

Jérôme Ferrier
Président d'honneur
Union internationale de l'industrie du gaz

Paris, 15 mai 2019

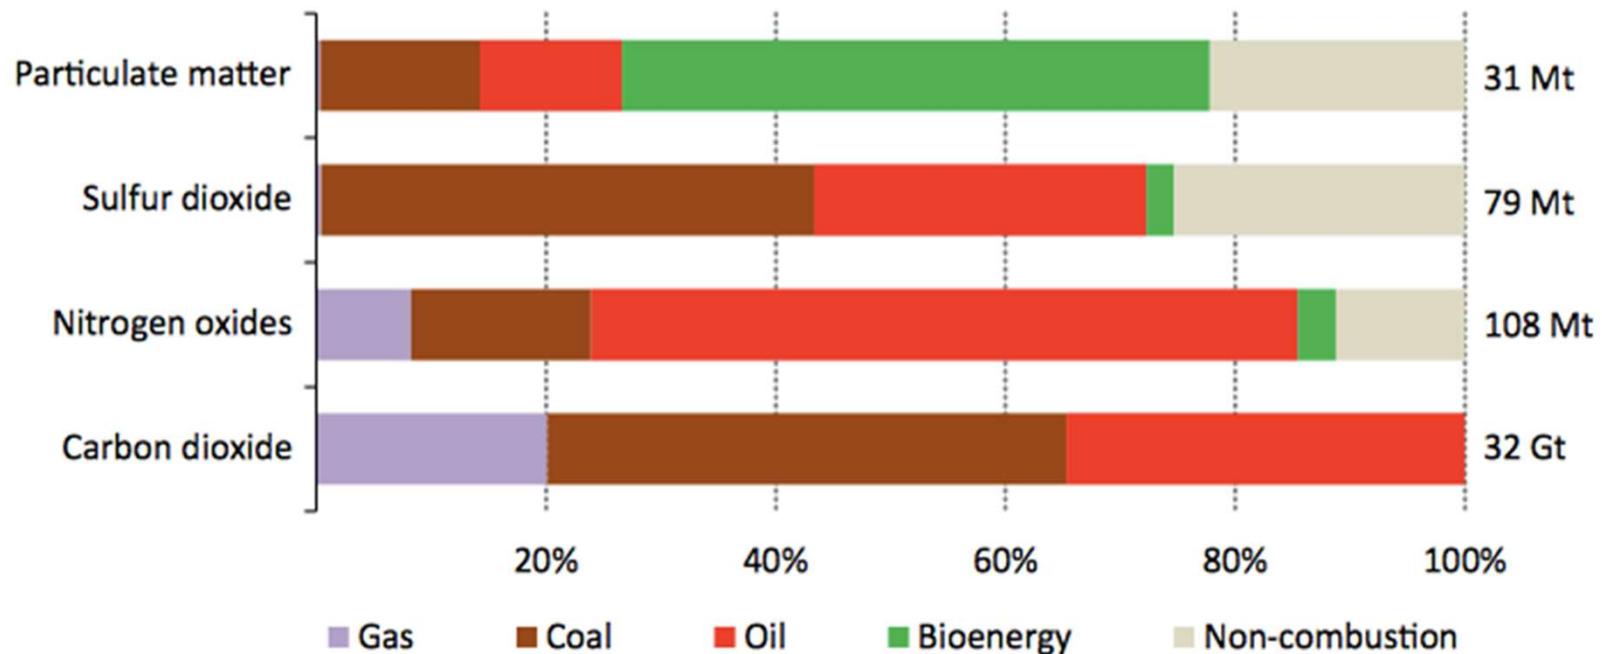

COP 21 + 15 ...

Emissions polluantes selon les différentes énergies

source : AIE WEO 2017

Figure 10.1 ▷ Share of natural gas in total energy-related emissions of selected air pollutants and CO₂, 2015

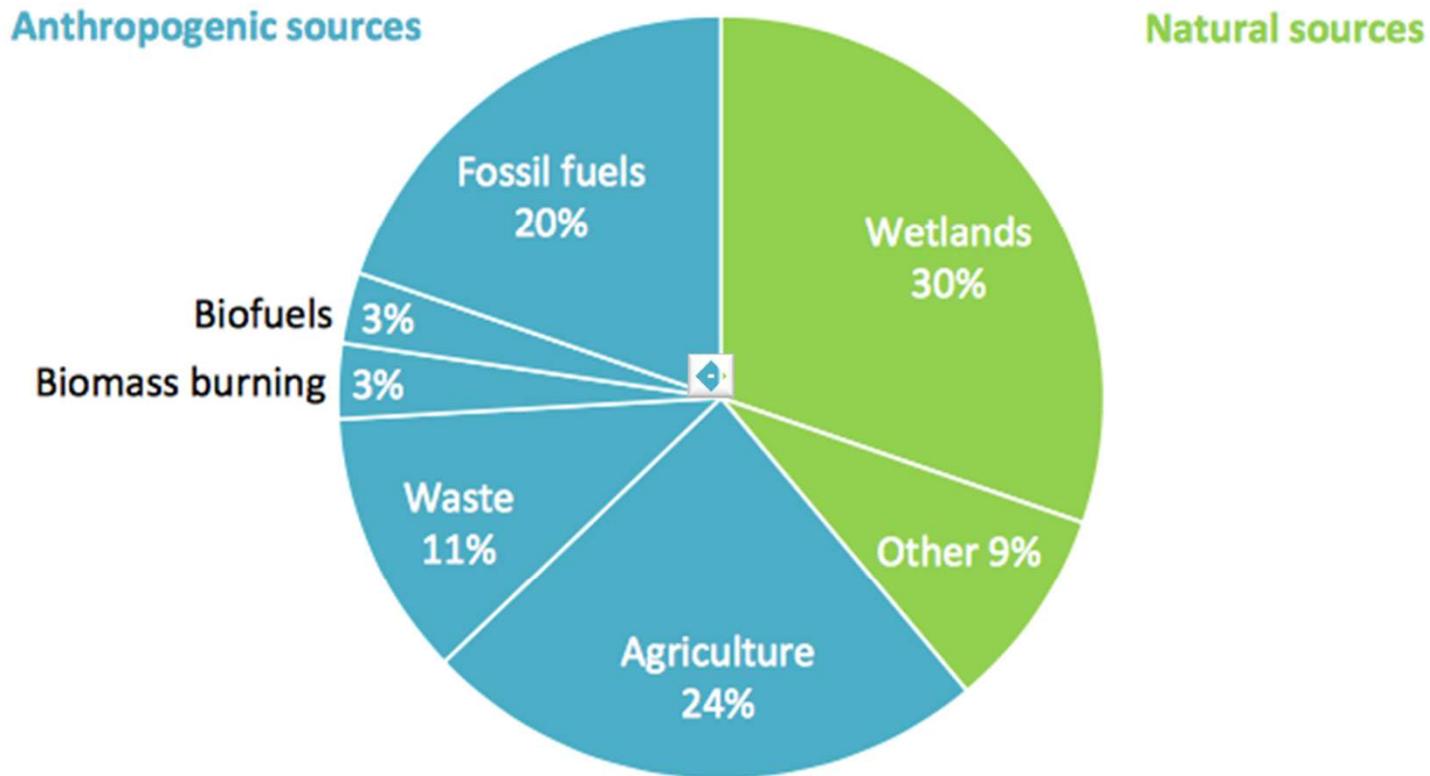

Compared with other sources, natural gas makes only a minor contribution towards today's emissions

Comparaison des sources d'émissions de méthane

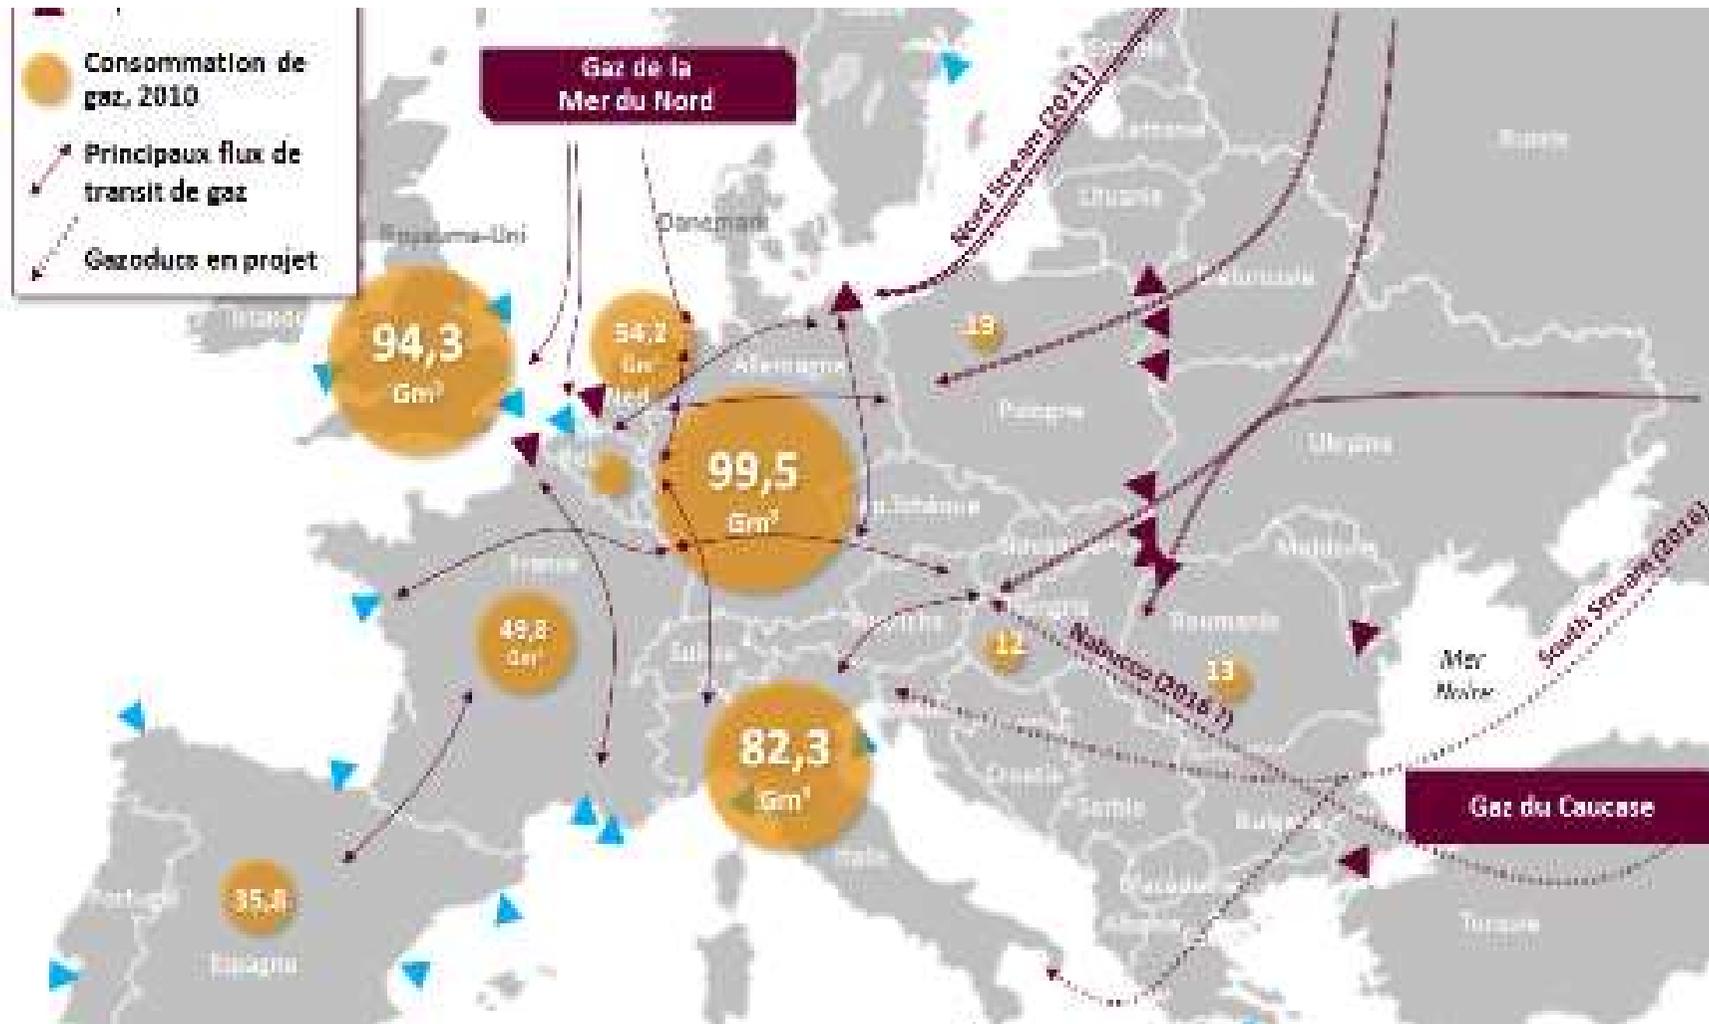

source : AIE WEO 2017

Figure 10.2 ▸ Sources of methane emissions, 2012

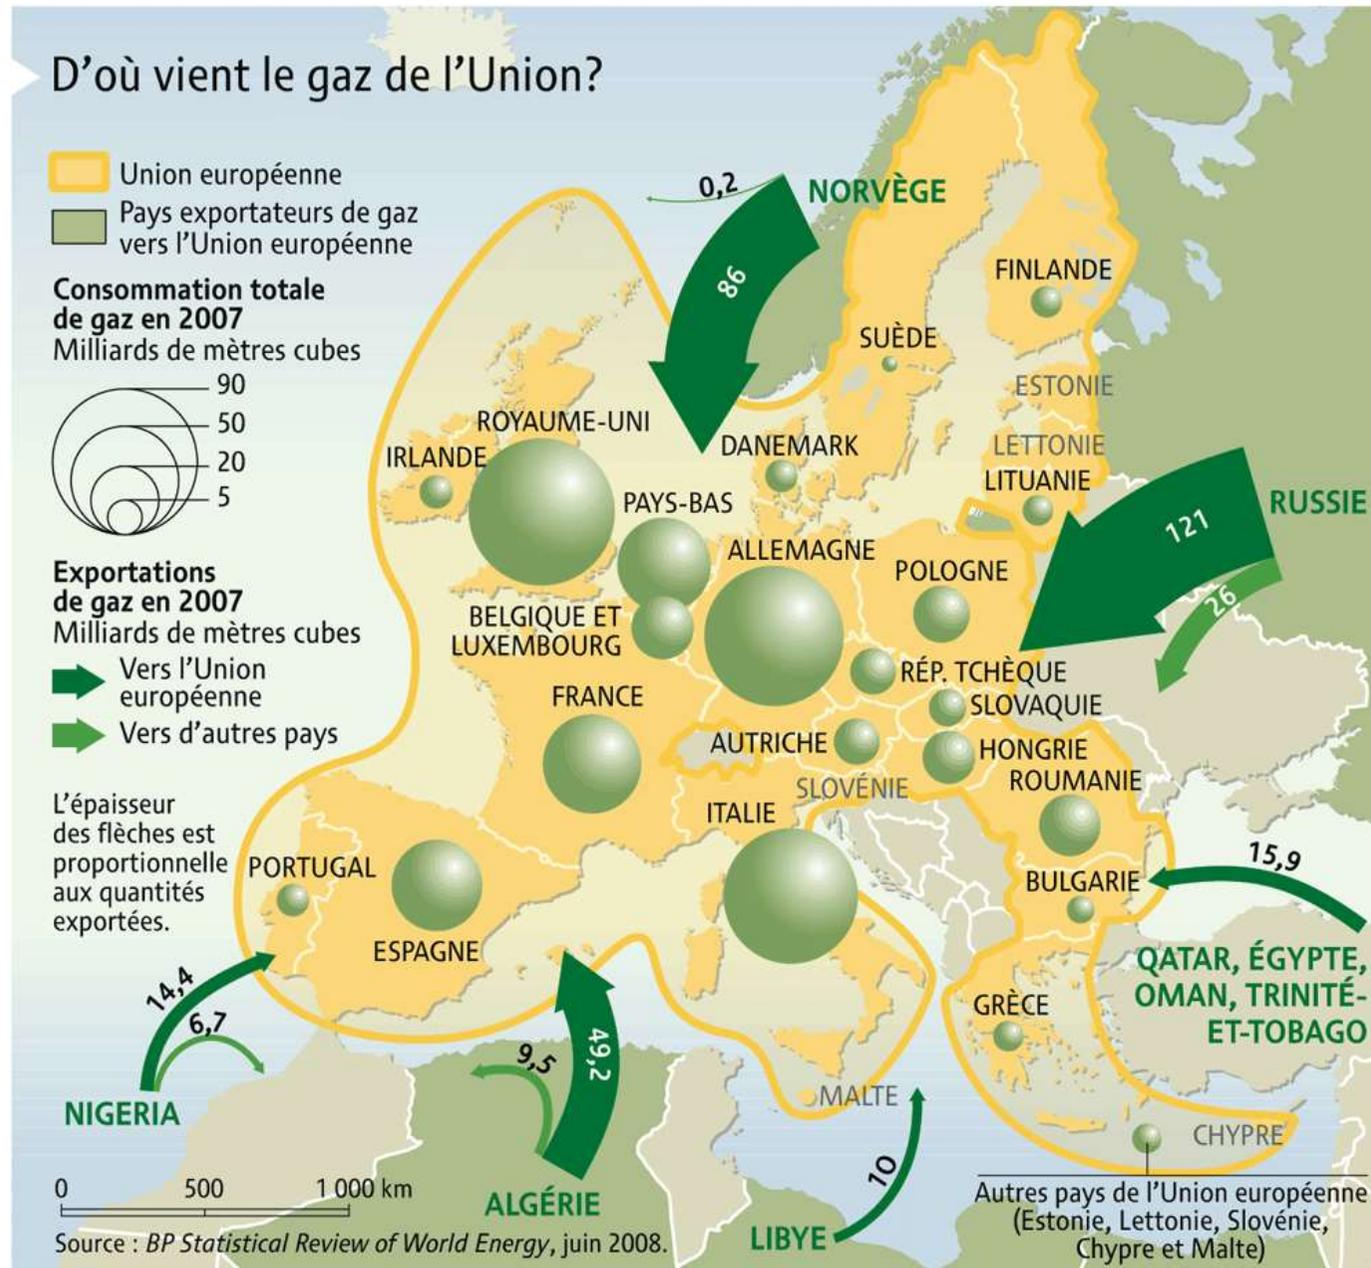

Attributing methane emissions to specific sources is difficult, but human activity is likely to be responsible for the majority of the 570 Mt emissions in 2012
