

**The Company *Les Escargots Ailés (Winged Snails)*-André Mandarino  
is looking for:  
4 performers for its next creation "CRUSH", scheduled for late 2021.**

Director: André Mandarino  
Choreography: Damien Fournier

The Company founded by André Mandarino develops a language associating the aerial circus with choreographic, musical and theatrical forms.

The Project: show from 12 years old.

This new creation "Crush" is primarily intended for adolescents. We talk about the physical and psychic transformations that it undergoes, at an age when everything is in turmoil: desire, possession, destructive love sometimes ...

The adult it is becoming was not built yesterday. It starts from childhood and this show addresses the path travelled / to be travelled to build affect.

On the set, a quartet, 2 men and 2 women, who in their acrobatic put themselves in danger while trusting each other. They support each other, attract each other, repel each other in friendly, family, romantic relationships.
