Lining	Rotary Cutter	Cut 2—15-1/2" wide x 16-1/2" tall

Sewing Directions:

Use 1/4" seams, unless otherwise indicated.

1. Sew 3-1/2" x WOF strips together lengthwise, alternating floral fabric with yellow fabric. Press seams to the same side.

2. Rotate strip set 90 degrees and place on 3-1/2" strip die. Sub cut 10—3-1/2" wide patchwork strip sets.

3. To make patchwork panel, alternate 5 pieced strips as shown in diagram. Nest seams and sew strips together. Press seams to one side. Repeat to make second panel.

4. For each panel, place one 4-1/2" x 15-1/2" piece of green fabric on top of quilted patchwork panel with right sides together, lining up sides and bottom edges. **To ensure patchwork motif continues around the bag when sewn together, rotate one panel 180 degrees before sewing green fabric to bottom.

** Pin and stitch. Press seam toward bag bottom.

5. Place each bag panel on batting. Quilt as desired. Trim batting even with fabric. Cut out a 1-1/2" inch square on both bottom corners of both quilted patchwork panels.
6. Place a quilted panel on top of each bag lining piece. Since the patchwork panels can shrink due to quilting, trim lining pieces so they are the same size as the quilted panels. Cut out a 1-1/2" square on both bottom corners of both lining fabric pieces.
7. Place exterior bag pieces right sides together and sew both sides and the bottom of the bag together using a 1/4" seam allowance. Repeat for the bag lining.
8. To make the boxed bottom, fold corner of bag so bottom seam lines up with side seam. Stitch. Repeat for other bag corner and lining.
9. To make bag handles, line up one long edge of 2-1/2" strip with one long edge of 3-1/2" strip, right sides together. Sew. Repeat with other side. **Note: Handle pieces will not lie flat once both sides are sewn.**
10. Turn handle right side out. Center floral fabric so a small border of green fabric shows on both sides. Press. Top stitch handles on both sides of floral fabric, approximately 1/4" from the seam.
11. To attach handles, place one handle on patchwork panel right sides together. Line up the center of each handle end with the seams as shown in the diagram. Pin in place and stitch handle to bag using a 1/8" seam. Repeat with second handle on the opposite side of the bag.

12. To assemble bag, place quilted bag exterior inside the lining, right sides together, making sure handles are tucked down inside the bag. Match side seams of bag with side seams of lining. Match raw edges of top of bag with raw edges of top of lining. Pin.
13. Stitch around the top of the bag leaving the area between handle on one side of the bag unsewn for turning.
14. Using the opening between the handle, carefully turn bag right side out. Tuck lining inside bag.
15. At opening between handles, fold outside of bag and bag lining in and hand stitch closed.
16. Topstitch around the top of the bag approximately 1/8" from edge.

8. Lay this on top of main piece and line up the bottom edge (the folded edge is 1" from the top).

10. Lay background 4-1/2" x 7-1/2" piece on top, right side down.

11. Stitch everything together leaving a 3" opening at the bottom.
12. Turn inside out once, use a wooden stick to help with keeping the corners crisp, turn inside out again now from the folded edge to get completed eyeglass holders. The opening stays hidden inside, so there's no need to sew it closed.
