Design, Chart & Instructions By Donna Vermillion Giampa, ©2001,2002 Donna Vermillion Giampa, The Vermillion Stitchery

**Special Instructions:**

We have included Stitch Counts for individual designs (including the names) as well as for both bears combined. If you stitch a bear separately, the name will have to be centered under the bear. We suggest that you count the number of stitches in the name, plus the stitch count of two name motifs. Compare that total to the width of the bear and divide that difference by 2. If half of that amount is higher than the width of the bear divided by 2, start that number of stitches to the left of the bear. If that number is lower, start the first name motif that number of stitches to the right.

**Note:** a few bear names don't have motifs due to the length of the names.

**Fabric Suggestions:**
