

Toulouse France, February 1st 2017

For immediate release

ZODIAC Nautic carries on the successful renewal of its product offering and introduces the Open7 during a World Premiere at Båtmässan, the Göteborg Boat Show in Sweden (February 4-12<sup>th</sup>).

Complementary to the Pro Open 550 & 650, the absolute reference in the Rigid Inflatable Boats world for over 20 years, it goes beyond the standards of the market.

An adventurer style with sleek lines, a perfectly ergonomic cockpit, an **exceptional reinforced deep-V hull** offering control and stability through hazardous and rough seas, OPEN 7 is the SUV of the seas.

As a true Swiss Army knife, this **cross-over** offers an exceptional modularity and is at ease with any type of activity. The compartments on the deck will welcome the gear for all your water-based hobbies, and can be converted into comfortable seats for a family day-out or into an empty space for fishing trips with friends.

The space optimization for console **storage**, accessible through a **wide front door that opens up** vertically thanks to pneumatic jacks, allows you to store on board all the gear and equipment necessary for any type of practice: diving canisters, fishing rods, water skis or wakeboard as well as sun bathing cushions etc.

Its **removable inflatable tubes**, Zodiac innovation, make the boat easy to clean and maintain, and the sophisticated harness geometry of the new "bumper-cones" facilitates access on board.

The Open 7 is suitable for towing on any road, and is perfectly mobile to explore new places. Last but not least, the **work on design** and its style evolution definitely marks the advent of the new generation of the Pro Open range from Zodiac Nautic.

### Key Features

- Perfect versatility
- Self-bailing deck
- Large diameter removable tube
- Great habitability
- Huge storage capacity : 1250 L !
- New Bumper Cone
- Tilt forward console, inc. front slide-up hatch

TECHNICAL SPECIFICATIONS :	OPEN 7
Overall length/inside length	6,95m/5,71m
