

The Attack on Food and Farmers: 8/6/24 draft, the times are ET

11:00 am I. The general outline of the attack on food and agriculture

A. CA Fitts **Intro:** There really is an attack on food and agriculture, our health, our lives; these attacks work for globalists, as they are an integral part of the control grid. There is a long history of control using food

B. Patrick Wood **Intro:** The 100 year history of technocracy/globalism's attack on food

11:45 am II. The specifics of the attack on food

A. *The long history of poisons in our food and what they do to harm us*

11:50am Andre Leu Chemical fertilizers, pesticides and herbicides: effects on humans, animals and soil (minus glyphosate)

12:15 pm Z Honeycutt How much glyphosate/pesticides are in foods, what this means and what you can do about it; reduced nutritional value of food grown in chemical-soaked soils

12:37 pm Michael Baum or Brent Wisner The state and fed pesticide/herbicide "hold harmless" bills

1:00 pm Don Huber Multiple Effects of glyphosate on humans, animals, soil and a solution

1:25 pm S Seneff Glyphosate and its biochemical effects

B. *The problems of industrial farming: poor quality food; bad for the soil, water, MANURE POOLS, environment; bad for the animals; PRICES OUT SMALL FARMERS, economics of farming well*

2:00 pm John Klar

C. *Reducing available farmland, removing animals from federal land, etc.*

2:25 pm M Byfield 30 x 30, NACs—reducing farmland from production, shifting control

2:50 pm Brook DL Transmission lines to break up farms and lead to farm sales; solar "farms"

3:15 pm. Abby R Sludge

D. *Reducing available food/ food control of high quality food*

- 3:35 pm B Hooker Bird flu—biodefense, culling, controlling, vaccinating
- 4:00 pm S Tenpenny Bird flu and animal vaccines in general
- 4:25 pm M McAfee Raw Milk—FDA's war on milk and why it makes no sense
- 4:40 pm T Thurman The Amos Miller case/Amish dairyman in PA

E. How government regulation has been used in the attack

- 5:00 pm Pete Kennedy USG regs, state regs
- 5:25 pm Alexis B-M Problems with the farm bill and how to make it better

F. Novel foods: bugs and lab-grown foods, industrialization of the future food supply

- 5:50pm R Verkerk/with Lisa's help The climate hoax and the imposition of bugs as food
- 6:15 pm E Van Hamelin. Fake foods, lab-grown proteins

G. 6:40 pm One Health--Tracy Thurman (2nd TT talk)

END DAY 1

H. Geoengineering is real, who/what/why and how it is attacking food and farming

11:05 am Peter Kirby, Marvin Herndon and Ginny Silcox-- --what geoengineering is, who is doing it, why, and how it has attacked food and agriculture--1 hr

III SOLUTIONS—How do we fix this?

- A. 12:10 pm James Corbett **have not finalized his topic**
- 12:35 pm RFK, Jr. **have not finalized his topic**

B. Growing food on the farm and in the garden—tricks of the trade

- 12:55 pm John Day
- 1:20 pm Fulford, Mark
- 1:50 pm Sarah Woods Kender

2:15 pm Joel Salatin

C. *Teaching our children about farming and all that goes with it*

2:35 pm Merinoff, L Teaching farming

3:00 pm Klar, John Teaching farming, pearls of wisdom

D. 3:25 pm RC Cook *Food sovereignty: efforts of a Native American tribe*

E. 3:45 pm T Waller *Food Security*

F. 4:10 pm *Changing the rules--big picture, small picture (local, state, federal agency plus federal legislation, global)*

?C Pingree awaiting decision

Max Kane Civil disobedience and raw milk

?H Retberg if able

Breanna Sagdal--beef initiative, changing the laws

Judith McGeary--success with first electronic eartag fight; can train activists in another symposium.

G. *Healing with Food*

5:50 pm M Perro

6:15 pm Meleni Aldridge

H. 6:40 pm Subject Wrap-Up: Klar, Nass, Fitts

I. 6:55 pm and ACTIONS for the audience to take: Nass, Fitts, ?
