

TRAINING IN ECC/ABB CREATIVE & HEALING FEMININE EXPRESSION

2020

ECC/ABB

Eveil par la Créativité Consciente/Art Being & Becoming

" When we create , we discover our depths, it's our job to let this wonderful sap flow in us, it's like honey... /... By creating we create the world, we participate in the expansion of the world , to a new world.... /... The more we create, the more we participate. Creating at the heart of an artistic adventure will participate in the creation of ourselves. We are with the extension of the universe. To say I am with the growing tree, with all these animal, mineral, plant species... To participate in this in a very simple and very humble way, contributes to the joy of the world, and the world needs it, so let's create !!! " Brigitte Seneca, extract from the video" Create to create yourself "

AWAKENING Through CONSCIOUS CREATIVITY: Why?

To create in order to connect, to listen to oneself, to trust in one's intuitive wisdom, to follow the impetus of one's heart and to remain faithful to the nature of one's soul... This is the whole process of accompanying oneself that ECC/ABB approach activates, stimulates and teaches all along its many programs ; Creativity and Intuition, Recycl'Art, Chakr'Art, Self Rebirth in Trust, Sacred Feminine, Sacred Union of the Feminine and the Masculine.

To set in motion towards creation is to set in motion towards healing. Learning to know ourselves through the symbolic language of our inner world through what it reveals when we listen to it without judgment is to find harmony at the heart of our inner being.

ECC/ABB approach is an artistic, therapeutic, philosophical , spiritual and mystical support. The dimensions of body, heart, mind and soul are all invited to the table of creative and intuitive dialogues.

All parts of self in shadow and in light are welcome and given the attention they need.

The spirituality of the being is enhanced and becomes the very foundation of this type of accompaniment. This allows an anchoring in the body and a connection to the soul so that the light passes through matter and matter is used in the service of the light. The tree cannot give anything without its roots well nourished in the earth and its foliage well lit by the sky, just as one cannot treat the trunk alone.

This healing creative feminine approach is not defined by a particular way or rooted in a dogma. It aims to be the bridge which allows the expression of Love and Light universal message to come through. It dives in the Sacred Feminine dimension within and all around, towards a more humanistic and pacifist world.

The approach supports children and adults alike by respecting all beliefs and levels of consciousness.

Each training candidate is invited to work on self-awareness and self-knowledge throughout their practice. The approach makes you grow and flourish while helping others grow and flourish at the same time.
