

1/10TH BUGGY "AB2.4"

Nouvelle generation - meilleures performances!

NEXT GENERATION

Art.-No. 12214
Brushless version

Caracteristiques générales du chassis:

- 4 roues motrices
- Transmission sur roulements
- Amortisseurs hydrauliques ajustables
- Différentiels avant & arrière
- Support moteur Aluminium
- Transmission protégée
- Nouvelle architecture du chassis "more performance"
- Bras réglables à pas inversés
- Triangles réglables
- Dissipateur thermique Aluminium
- Roues Racing "Aero disc"
- Carrosserie peinte
- Sticker design pour personnalisation
- Options et pieces disponibles!

Specification techniques:

- Dimensions (L/W/H): 380x255x155 mm
- Poids: 1410g (brushed) / 1400g (BL)
- Empattement: 270 mm
- Hauteur chassis: 35 mm
- Largeur des pneus: 33 mm front / 42 mm rear
- Pneus $\varnothing \pm 88$ mm
- Combiné ressort amortisseur: medium / Long: 85mm av/arr
- Viscosité de l'huile des différentiels: 1.000 avant / 3.000 arrière
- Viscosité de l'huile des amortisseurs: 400 f/r
- Moteur transmission (brushed): Pinion 23T / Gear 64T
- Transmission moteur: acier (BL/KIT): pignon 26 / couronne 64T
- Module pignon: 0.8

RTR BRUSHED VERSION

HIGHLIGHTS:

- Water-resistant 40A Speed Controller
- Powerfull 540 15T Motor 32.000RPM
- 2.4GHz A.F.H.D.S. Radio System

More features:

- **Speed Controller (2100002):** • NiMH (7.2V) & LiPo (7.4V/2S) suitable • Amps: 40A • BEC 5V/2A • Drive function: front/reverse/brake • Plug system: Tamiya • **Servo (2030003):** • 4kg steering force • 25T outdrive • **Motor (1230360):** • 15T • 32.000RPM • 16A • Size: 540 • **Radio (2000001):** • 2-channel radio • 3-channel receiver • reverse • dual rate • trimming

RTR BRUSHLESS VERSION

HIGHLIGHTS:

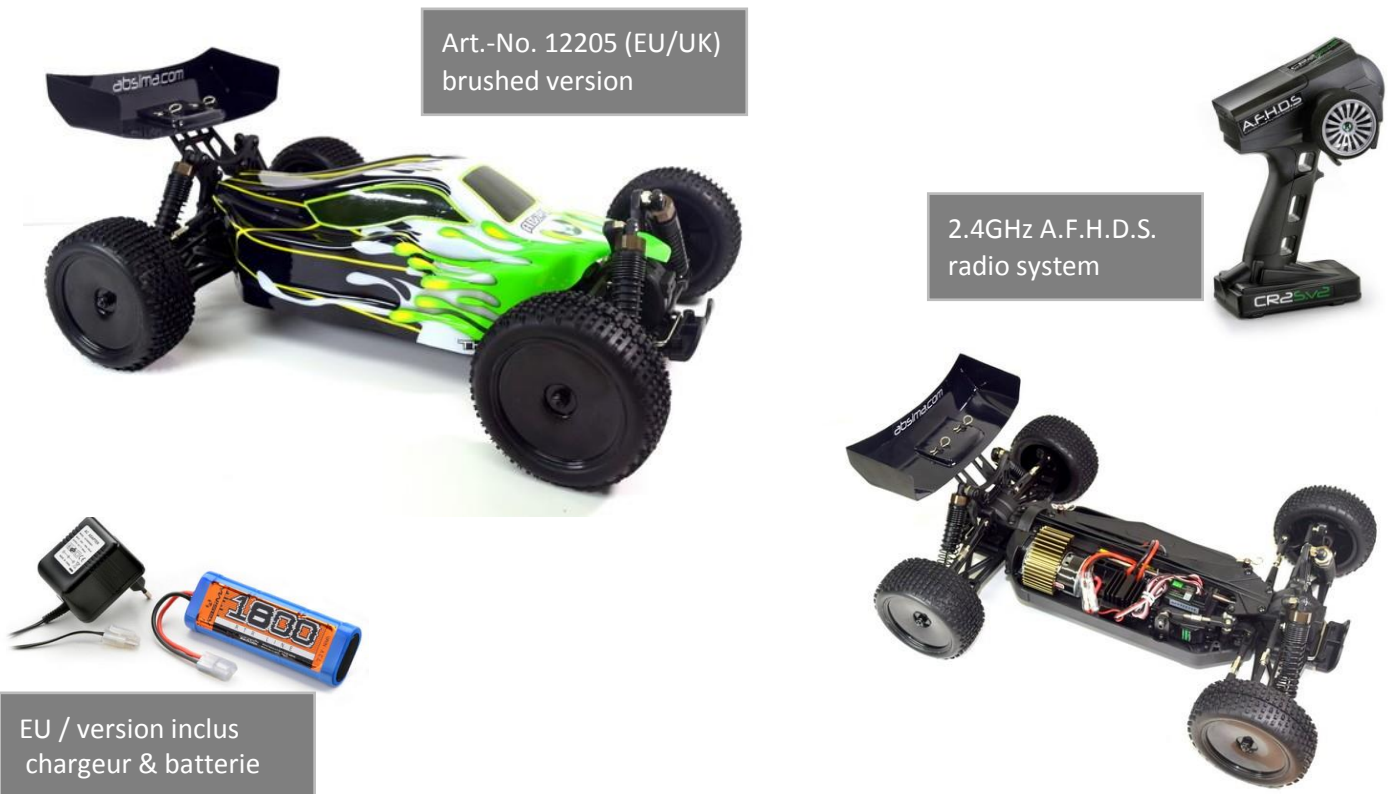

- Water-resistant 50A BL Speed Controller
- Powerfull 3300KV BL Motor
- 2.4GHz A.F.H.D.S. Radio System
- Full Aluminum Shocks
- Steel Motor Transmission

More features:

- **BL Speed Controller (2110007):** programmable (brake power, neutral brake, drive mode, punch, V cut-off) • NiMH (7.2V) & LiPo (7.4V/2S) suitable • Amps: 50A cont. / 300A peak • BEC 6V/3A • Overheat cut-off • Drive function: front/reverse/brake (standard) • Plug system: T-plug (Deans style) • **Servo (2030003):** 4kg steering force • 25T outdrive • **Motor (2130005):** • 3421KV • 27.400RPM@7.4V • Operating voltage: 4.8 - 11.1V • Size: 540 • **Radio (2000001):** • 2-channel radio • 3-channel receiver • reverse • dual rate • trimming

KIT VERSION

- KIT version comes without electric parts (speed controller, motor, servo, radio system and charger/battery) for self-assembling • Diiferentials and shocks built already • Brushless design printed body • Steel motor transmission
