

The most famous attraction at Universal Studios is probably the Studio Tour. It's the best opportunity for the visitors to explore the working backlot of a real Hollywood studio. The tour also includes King Kong 360 3-D, the world's largest 3-D experience.

This attraction was created by Peter Jackson in 2010. This is the world's largest and most intense 3-D experience. With this attraction, visitors can test their survival instincts in the middle of a huge T-Rex and the biggest King Kong of all time!

The International 3-D Society awarded this attraction with the prestigious Creative Art Award so don't miss it!
