7

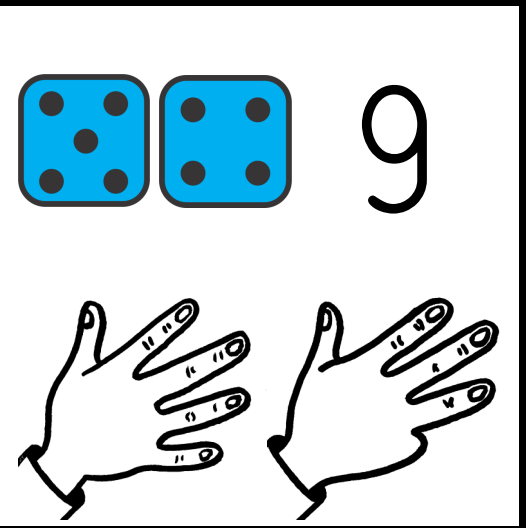

Two blue dice are shown: the left die has 4 dots and the right die has 3 dots. To the right of the dice is the number 7. Below the dice and number are two line drawings of hands. The left hand is open with all five fingers extended, and the right hand has its index finger pointing up, representing a total of 7 fingers.

8

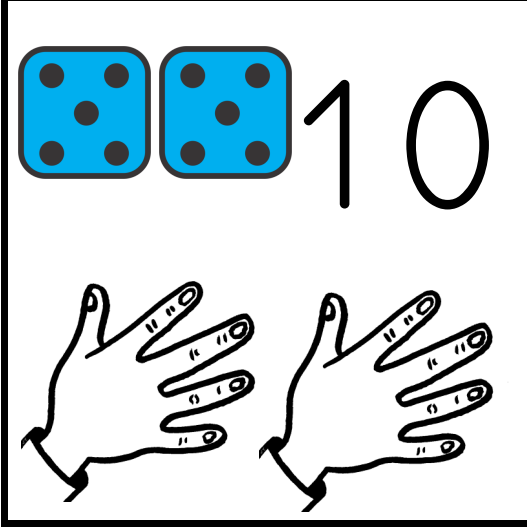

Two blue dice are shown: both the left and right dice have 4 dots. To the right of the dice is the number 8. Below the dice and number are two line drawings of hands. The left hand is open with all five fingers extended, and the right hand has its three middle fingers extended, representing a total of 8 fingers.

9

Two blue dice are shown: the left die has 5 dots and the right die has 4 dots. To the right of the dice is the number 9. Below the dice and number are two line drawings of hands. The left hand is open with all five fingers extended, and the right hand has its four middle fingers extended, representing a total of 9 fingers.

10

Two blue dice are shown: both the left and right dice have 5 dots. To the right of the dice is the number 10. Below the dice and number are two line drawings of hands, both open with all ten fingers extended.
