A dark blue space-themed background featuring a white square in the center. The background is decorated with numerous small white stars and a larger orange planet with a darker orange spot, resembling Mars, in the upper right corner. The bottom edge shows a curved horizon of a planet with a light blue and grey surface.

470

A dark blue space-themed background featuring a white square in the center. The background is decorated with numerous small white stars and a larger orange planet with a darker orange spot, resembling Mars, in the upper right corner. The bottom edge shows a curved horizon of a planet with a light blue and grey surface.

315

A dark blue space-themed background featuring a white square in the center. The background is decorated with numerous small white stars and a larger orange planet with a darker orange spot, resembling Mars, in the upper right corner. The bottom edge shows a curved horizon of a planet with a light blue and grey surface.

125

A dark blue space-themed background featuring a white square in the center. The background is decorated with numerous small white stars and a larger orange planet with a darker orange spot, resembling Mars, in the upper right corner. The bottom edge shows a curved horizon of a planet with a light blue and grey surface.

235

A dark blue space-themed background featuring a white square in the center. The background is decorated with numerous small white stars and a larger orange planet with a darker orange spot, resembling Mars, in the upper right corner. The bottom edge shows a curved horizon of a planet with a light blue and grey surface.

108

A dark blue space-themed background featuring a white square in the center. The background is decorated with numerous small white stars and a larger orange planet with a darker orange spot, resembling Mars, in the upper right corner. The bottom edge shows a curved horizon of a planet with a light blue and grey surface.

A dark blue space-themed background with scattered white stars of varying sizes. A large white square is centered in the frame. In the top right corner of the white square, a small orange planet with a darker orange spot is visible. The bottom edge of the white square shows a dark grey, cratered surface, likely representing the moon.

200

A dark blue space-themed background with scattered white stars of varying sizes. A large white square is centered in the frame. In the top right corner of the white square, a small orange planet with a darker orange spot is visible. The bottom edge of the white square shows a dark grey, cratered surface, likely representing the moon.

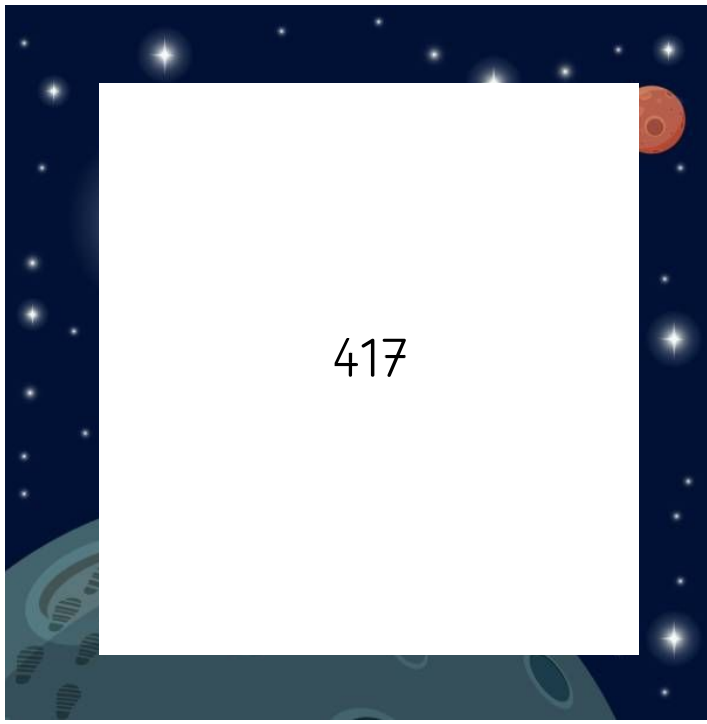

630

A dark blue space-themed background with scattered white stars of varying sizes. A large white square is centered in the frame. In the top right corner of the white square, a small orange planet with a darker orange spot is visible. The bottom edge of the white square shows a dark grey, cratered surface, likely representing the moon.

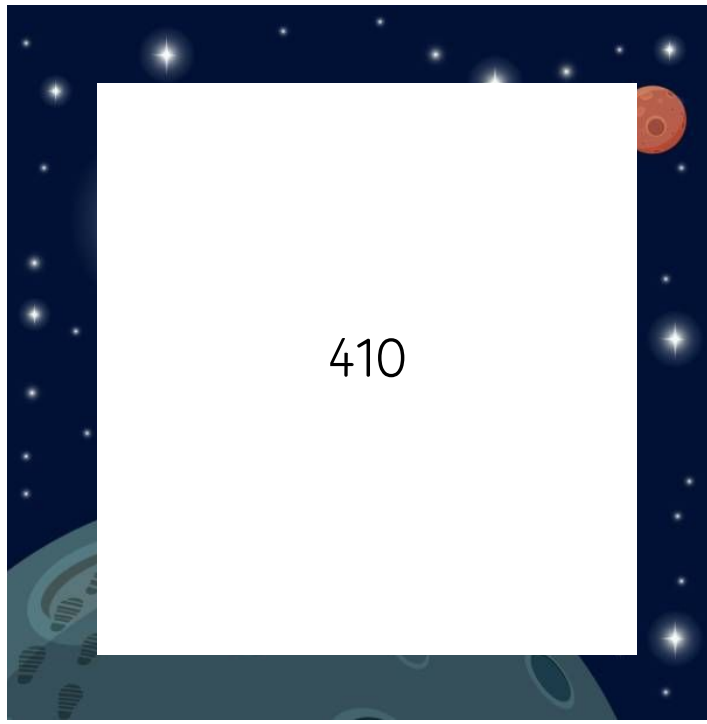

220

A dark blue space-themed background with scattered white stars of varying sizes. A large white square is centered in the frame. In the top right corner of the white square, a small orange planet with a darker orange spot is visible. The bottom edge of the white square shows a dark grey, cratered surface, likely representing the moon.

310

A dark blue space-themed background with scattered white stars of varying sizes. A large white square is centered in the frame. In the top right corner of the white square, a small orange planet with a darker orange spot is visible. The bottom edge of the white square shows a dark grey, cratered surface, likely representing the moon.

417

A dark blue space-themed background with scattered white stars of varying sizes. A large white square is centered in the frame. In the top right corner of the white square, a small orange planet with a darker orange spot is visible. The bottom edge of the white square shows a dark grey, cratered surface, likely representing the moon.
